

# Debris Plug

## For SlimLine™ Receptacles

The debris plug works with the entire family of SlimLine™ receptacles to protect against the entry of dust, dirt, and debris when the receptacle is not in use. The debris plug features a brass eyelet which can be used with a tether such that it hangs near the receptacle when it is not inserted in the receptacle's opening. The debris plug can be used with both board-mount and panel-mount SlimLine receptacles. While the debris plug does not provide a water tight seal, it does provide a barrier that prevents items from getting into the receptacle's pocket. It should be noted that with the IP-rated SlimLine receptacles, the debris plug is not required to maintain the IP rating of the receptacle.

MECHANICAL	
Debris Plug Material	Thermoplastic Vulcanizate (TPV)
Eyelet Material	Brass
MATING COMPONENT(S)	
Panel-Mount Receptacles	All SlimLine™ Receptacles
Board-Mount Receptacles	All SlimLine™ Receptacles
ORDERING INFORMATION <sup>1</sup>	
Debris Plug	329-0366-001A

1: "A" suffix on part number indicates RoHS compliance. See CE declaration below for details.

NOTE: Conforms with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011, and as amended by Directive 2015/863/EU, on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Drawing dimensions are in inches and millimeters [mm].  
Dimensions are nominal and subject to manufacturer's tolerances.

221-0161-000 Rev. C 2/25
