

## Datakey – Product Change Notification

**PCN Number:** 20200916  
**Notice Date:** 16 September 2020  
**Notification Subject:** Product Change Notification (PCN)

### Summary Description:

UFX RUGGEDrive™ memory tokens provide USB flash drive functionality in a proprietary form factor that is more robust than traditional thumb drive designs that use standard USB connectors. Internally, the UFX memory tokens leverage SD memory that utilizes MLC NAND flash. When the SD memory used in the UFX memory tokens goes end-of-life (EOL), ATEK qualifies a replacement SD memory device and updates our bill of material using our ISO 9001 engineering change order (ECO) process. Such a change recently occurred with the Datakey UFX4GB RUGGEDrive memory tokens.

### Affected Products:

UFX4GB RUGGEDrive Memory Tokens, Black  
UFX4GB RUGGEDrive Memory Tokens, Red  
UFX4GB RUGGEDrive Memory Tokens, Yellow  
UFX4GB RUGGEDrive Memory Tokens, Green  
UFX4GB RUGGEDrive Memory Tokens, Blue  
UFX4GB RUGGEDrive Memory Tokens, Gray  
Customized UFX4GB RUGGEDrive Memory Tokens

### Part Numbers:

611-0210-000A  
611-0210-002A  
611-0210-004A  
611-0210-005A  
611-0210-006A  
611-0210-008A  
Varies

### Details of Notice:

The SD memory used in the UFX4GB tokens has gone EOL. A replacement has already been qualified. The previous SD memory was compliant with the SD 2.0 specification, whereas the new SD memory is compliant with the SD 3.0 specification.

The transition to the newly qualified memory in the UFX4GB tokens took place starting in July of 2020. UFX4GB tokens during this month will have a date code of 7 – 0 (corresponding to July of 2020). UFX4GB tokens produced in August of 2020 (date code of 8 – 0) or later will use the newly qualified SD memory that is compatible with SD version 3.0.

If you have any questions regarding this PCN, please contact the Datakey Customer Care Team.
