Top 5 Reasons OEMs Choose Datakey

The power of memory. Secured.

1 Rugged & Reliable

- Solid over-molded construction using ultra-rugged composites
- Every memory device is electronically tested
- Industrial temperature ratings for all memory devices*
- High cycle-life, IP-rated receptacles
- MIL-STD-810 environmental testing
- Redundant contacts

Proven to work the first time, every time in the harshest environments

2 Data Security

- A range of security options so you can "right-size" your security
- Our unique form-factors keep out the curious
- We only sell to our qualified customers
- Memory devices with unique, non-changeable serial numbers
- Memory devices with mutual authentication, on-board encryption

3 Long-Term Availablity

- With Datakey products, obsolescence concerns are obsolete
- Our products' track record of availablity speaks for itself
- Several products have been in our catalog for over 25 years

4 Proven Designs/Industry-Standard Memory

- Our products use industry-standard serial EEPROM and Flash
- Choose the right capacity: 1 Kb to 32 GB (or more)
- Standard interfaces: I²C, Microwire, SPI, SD, USB
- Our designs have been field-proven in the harshest environments

- Customize the color, logo or shape to match your brand
- Customize the electronics to meet your unique needs
- Completely-custom design options

* Industrial temperature rating is optional on RUGGEDrive™ models.
