

# UFX8GB Development Kit

The power of memory. Secured.

## Information and Guidelines

- UFX memory tokens are preformatted FAT32 per SD Organization guidelines.
- UFX memory tokens should only be inserted into UFX receptacle systems and/or the UFX PC adapter. Damage could occur if a UFX token is inserted into a DFX PC adapter, a SlimLink programmer or any other system not intended specifically for the UFX token.
- Refer to receptacle datasheets for pin-out information.
- EN 55022 Class A Statement: Warning: This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
